

Castle Valley Ranch PUD HOA --- June 2023 Message to the Members

Please consider being a committee volunteer. There are a lot of great ideas for community involvement in Castle Valley Ranch. If you have interest, or suggestions, please let me know.

The architectural review committee reviews new construction as well as improvements to existing homes. The mission for this committee is to ensure conformance with design guidelines and harmony within the community. Toward that end, the committee is reworking the design guidelines with a focus on considering eco-friendly and sustainable options for improvements to existing homes. Please consider becoming a member of this committee and celebrating the harmony of Castle Valley Ranch.

The beautification committee supports a community clean-up weekend, trees and flowers, park improvements, a fitness trail, wildfire mitigation and more. The mission for this committee is to bring beauty to and encourage outdoor activities within the community. Please consider becoming a member of this committee and celebrating the beauty of Castle Valley Ranch.

The community events committee supports Holiday lighting, yard of the month and similar contests, community yard sale, neighborhood watch, and perhaps a community barbeque. The mission for this committee is to foster community involvement and networking. Castle Valley Ranch is a member of the New Castle Chamber of Commerce and sponsors local events when possible. Please consider becoming a member of this committee and celebrating your community.

Communication is always a challenge with over 800 homes. The website (castlevalleyranch.net) is undergoing development. Quarterly newsletters are also under development. A calendar of scheduled board meetings and events will be shared with the members and posted to the website. Please consider helping us develop these forums to provide better communication within the community.
